

**West St. Paul-Mendota Heights-Eagan
Area Schools - ISD 197**

Early Childhood Screening

Early childhood screening provides a free overview of your child's development. The best possible time to have your child screened is at 3 years and before the 4th birthday. During screening a nurse will check: hearing, *vision, immunization records, cognitive and motor skills, speech/language and communication and social/emotional development. You will be provided with information on your child's development, kindergarten readiness as well as other community resources. Please call our screening office at 651-403-8363 to schedule your child's appointment.

**While screening helps the district identify children who may benefit from available community resources, vision screening, while helpful, is not a substitute for a comprehensive eye exam.*

Location **Early Learning and Family Resource Center**
1970 Christensen Ave
West St. Paul, MN 55118
